Every successive stage in the progress of the trial has made it trebly sealed.

The audience has laughed in Powers' face when he told his own rambling story of defense, and they have leaned forward in tense excitement and all but cheered when some particularly damning piece of evidence has been given against

Powers is being sent to his death not so much by direct evidence as by the rage of thousands who believe, before it is proven, the story of his crimes. In any other case, no just man could listen to this trial without feeling sympathy for but a reputable 24-year-old citizen the stout respectable looking little of Clearwater, Fla., named Irene case of Powers. His crimes-and there seems no loophole of escape from belief in them-are too horrible to consider sanely.

I went out late last night to the murder farm at Quiet Dell. The fields were dark and deserted; it was not a pleasant place to be, the "garage" stood open to the field, for the mob has torn down its doors. Inside was the gaping trap door leading down to the lightless. airless cells that Powers had had built below the floor - each equipped with a door that locked and a mysterious gas jet.

There were blood-stains on the ceiling of one of the cells where two women and three children had died. It is a remote, lonely place, cries from underground. ## SENATE COMMITTEE TO PROBE FOREIGN SECURITIES SOON

Party Leaders Will Meet To Prepare Investigation

WASHINGTON, Dec. 10 .- The oreign securities investigation initiated by Senator Johnson (D) of California, will get under way without delay. Republican and Democratic leaders of the senate finance committee which is directed to make the inquiry will meet in the next few days and formulate plans for the assembling of a staff of investigators and to draw a list of witnesses.

For more than a year it has been charged that many of the hundreds of banks that have closed their doors have crashed partly because of frozen assets in the form of foreign securities. If these charges are born out by

the investigation as Johnson be lieves, profound political reverberations may result. Senate leaders say the investiga-

tion will not defeat approval of the one-year moratorium, but it may effect any attempt to extend the debt holiday.

This object was strongly indicated by Johnson following the introduction of his resolution, which is expected to be approved by the senate at today's session. Action on the measure was expected by Questioned by Chicago police in the appointment yesterday of a

Among the Republicans on the committee are, Senators Couzens (R) of Michigan, and La Follette (R) of Wisconsin, both critics of he international bankers. The Democrats have an even larger epresentation of members of this lewpoint on the committee in Senators Harrison, of Mississippi, eorge of Georgia, King of Utah Barkley of Kentucky, and Connolly of Texas.

### OPPONENTS PLAN TO DRAFT NEW REMEDY TO REMOVE DEFICIT

Opposition Forms To President's Plan To Raise Taxes

WASHINGTON, Dec. 10 .-The Hoover-Mellon tax program appeared doomed today, even before congress has for-

mally considered it. Democrats and insurgents in control of house and senate prepared to draft a rival program for financing the government and meeting the deficit.

The President's suggestions ranging from a wholesale increase in income taxes to the institution of miscellaneous taxes, developed so much opposition that few administration leaders hoped for their adoption. With the Democrats and insurgents in control, it seemed entirely likely that the President's plan would be rejected and a sub-

coalition. Three of the President's suggestions met with violent Democratic opposition. These were the retroactive features of the income tax increases; his plan to balance the budget in two years, and his proposal to reduce the amount of exemptions from income taxes.

#### LABOR WRITERS ARE HEARD BY ANTIOCH **COLLEGE STUDENTS**

Harvey O'Confor, chief of the Pittsburgh office of the Federated Press, and Jessie Lloyd O'Connor, traveler, free-lance writer, and abor journalist, spoke Wednesday to the students and faculty of Antioch College, Yellow Springs.

Mr. O'Connor related first hand xperiences in "Getting Labor's mine s in "Harlan, America's Hot Spot.'

Mrs. O'Connor, who went down to Harlan County, Kentucky, in August, covered preliminaries of the mine workers trial for the Federated Press after two previous correspondents had been shot while on assignments there. She related her difficulties in getting access to records and told how she was followed about and threatened not only by deputy sheriffs but by their wives, who warned her to be careful lest she too be indicted and put in jail.

### WINTER NIGHTIES ARE LIKE EVENING GOWNS SAYS SCRIBE

By ALICE LANGELIER International News Service Staff Correspondent.

PARIS, Dec. 10-Its's not nightie but evening gown! That's what every woman is saying about the almost naughty-looking nighties coming out for cold winter nights. They have bodices and skirts, sleeves n'everything.

This new nightie is by no means the shapeless slip donned several ears ago and a very far cry from Grandmother's stiffened highnecked, long-sleeved muslins.

Clairgand is showing a decidedly satin cut on the bias, with a swirl ing skirt and lace incrusted bodice Another in pale pink georgette has the skirt open at the side-front and a little lace incrusted bolero. Either one would look very smart for the simple dinner at home.

Annek uses white georgette for very chic nightie with little fitted bodice all shirred in one with the little puffed sleeves. A ribbon girdle passes through the lowest row of shirring and ties in the front. The skirt is full and

Bias cuts are used for new slips and pantles eliminating all bulk about the waist and hips. A pair in pink crepe satin has a flat yoke and circular fullness at the bottom. The slips are finished with a band of Binche lace.

Very tailored and trim are little dance sets in firm satin that come with panties well-fitted about the hips and brassiere to match.

#### REICHSBANK SHOWS FIRST GAIN IN GOLD

BERLIN, Dec. 10.—Gold losses by the Reichsbank have been stopped for the first time in months. A bank statement today said there was a gain of 400,000, marks in gold and foreign exchange last

week, increasing the total holdings to 1,175,600,000 marks. This increased the gold coverage of currency to 25.6 per cent.

#### Why Get Up Nights?

Make This 25c Test This easy bladder physic is needed to drive out impurities and excess acids which cause irritation that results in leg pains, backache burning and getting up nights, BU-KETS, the bladder physic, containing buchu, juniper oil etc., works n the bladder pleasantly and effectively as castor oil on the bowels. Get a 25c box (5 grain size) from your druggist. After four days, if not relieved of getting up nights go back and get your money. You are bound to feel better after this leansing and you get your regular leep. Locally at Donges Drug Store

#### WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentie vegetable extracts, amazing when it comes to making the bile flow freely.
